

THIS FACILITY USES

The Synexis Microbial Reduction System produces Dry Hydrogen Peroxide from the environment at safe levels to reduce microbes throughout this facility.

-
- Is effective against airborne and surface contaminants
 - Operates continuously to reduce viruses, bacteria, and mold
 - Synexis is a natural, green technology
 - Utilizes ambient the air in the environment to achieve microbial reduction
 - Reduces odors
-

Synexis is a patented technology and is regulated by both the Occupational Safety and Health Administration (OSHA) and Environmental Protection Agency (EPA).
